grade, and are filling and widening it by the use of earth and cinder obtained from their mill property, and by the time they are so lovely and the numerous village are so lovely and the numerous village or charming that one sighs in having to are done with it there will not be a more ample thoroughfare in the city.

by closing the switch, any car which may from any cause be started down the grade would run, thus avoiding any danger from cars running wild. Theswitch will always be closed at nights and on Sandays, and at such times as the Mill may

In addition to the improvement of the street, the company are grading off their lots in the violaity of the mill and south of it, which will give them largely increased storage room for metal. Already one of the advantages gained by the grading down of the lots is a most decided ddition to the comfort of the toilers in

expenantures of wisdom and money as in the improvements we have noted.

Finally, if those interested in the Caldwell, property will expend as much as the city did in the erection of the bridge at Eoff street, the run will be straightened, a number of valuable lots will be rescued from its fortious embrace, and the old project of straightening Caldwell's run will sleep in the chronicles of the City Fathers, and, as a difficult problem, will no longer yex us.

is an old Virginian by birth and has a brother who is a minister of the Metho-Harper's Barar.

Most of us can probably count our friends on our fingers, and fortunate are method on once took an active hand in a fight, and even yet is only very indifferently reconstructed. It is thus that families were devived during the war. Rev. Franklin Ball, although raised ini old Virginia, was, before held there, an anti-slavery man, and on coming to West Virginia joined his fortunes with the Church North on the slavery question, and in that faith has firmly abided to this day. We wish him much success in his new sphere of labor. He has been an "energetic and useful man here in West Virginia, and goes North bearing with him the good wishes of all who know him.

Col. E. M. Norton and wife are spending a few days in the city with Mrs. Caroline Norton, of Centre Wheeling. One of the Wellsburg papers intimates that the Clonel thinks of purchasing properly in that vicinity, and becoming resident of Brooke. He has been looking at the homestead of the late Adam Kuhn, which is shortly to be sold at public wale. He has had an offer for his farm at Portland, Ohlo, which he may conside to accept.

of alem lin

wood to Eoff, and will complete the work within a day or two, giving to the city another ample thoroughfare, constructed by the labor of a class of men who are never so usefully or respectably employed as when serving out a thirty day sentence. The improvement will cost the city comparatively nothing, and yet, we understand, there are chronic malcontents in the Council who will want to investigate as to the authority by which the city prisoners are semployed in said work.

The Riverside Mill Company, under a grant from the Council, have nearly completed the construction of their switch from the Upper Mill down Wood street to the Baltimore & Ohio Railroad, which is adother very solid improvement the city has gained at a trifling expenditure of a little wind on the part of opposing Councilmen. Under the superintendance of Mr. Frank Hearn, who is an educated engineer, the Riverside Company have put a good substantial bridge, resting on stone abutments, over Caldwell's Run, sufficient not only for their railroad but ample also for the accommodation of all wagon and foot travel. They have brought Wood street to the catablished grade, and are filling and widening it by the use of earth and eight solve the constanting the proposing content of the commodation of all wagon and foot travel. They have brought Wood street to the established grade, and are filling and widening it by the use of earth and eight solve in the content of the Mediterranean, stand two high and graceful looking lightlesses.

houses.

Between Genoa and Pisa the railroad

pass through them so quickly. It is nex to impossible to particularize about Ital Here we may be allowed to auggest that there is a defect which the Council ought to remedy, viz: that the bridge is too low. It would be better both for the City and the Mill Company if the bridge were several feet higher, as the grade of the street would be much improved. We could never stand it; no art, limited cult the street would be much improved. We could never stand it; no art, limited cultilities all the attention of the Committee on the state. It tried to disabuse her mind of the state, and the state of the state, and the state of the state of the state. It tried to disabuse her mind of the clevation of the bridge. In order to currently against accidents, either from care-lessness or design, the Mill Company are constructing a side track, upon which, by closing the witch, any very which many circumful and the state of the st cast a month, and it is diment to see the city and its surroundings properly in less time. There are about 113,000 inhabi-tants, and Italian genius seems to have been particularly lavish in fine works of every description. Some of the little towns on the hilly crests, near the city, are older than Rome, founded centuries before Christ. Yesterday evening I took a driven up to an eminence commanding a drive up to an eminence commanding full view of the city and its suburbs, and it was magnificent. The Appenines in the distance, the quaint cosy villages on the neighboring hills, and Florence below with the Yellow Arno running

below with the Leilow Ario running a golden chain through the city and spanned by numerous ancient bridges.

A band was discoursing fine missio at a tremendous cafe located on this seminence, and the fashion were driving about in all bridges, despent seminers. ing down of the loss is addition to the confort of the toilers in the mill, by removing all obstruction to the free admission of the refreshing southwest breezes.

Taking it all in all, we are convinced that those who like ourselves make a towly of all kinds, and all so very cheap. The store of the fact that at the time of the inner store of the fact that at the time in many years has the city received such substantial return for slight expenditures of wisdom and money as in the improvements we have noted.

The adversarial about in all and the fashion were deriving about in all

lelagio on Lake Como, thence to Swiizproblem, will no longer vex us.

We had a pleasant call yesterday from
Rev. Franklin Ball, who has been swinging round the country this summer
among friends and relatives, enjoying a
few months vacation, after 20 years of
hard work, before going to his new field
of labor in Central New York. Mr. Ball

A WHEELING MAN IN ITALY.

The Partners of the City Council, which has a least a grain a constant of the council of the co

These Pills are alterative, and produce sealthy action of the liver without the cast danger, as they are free from calomel and yet more efficacious in restoring sealthy action of the liver.

These remedies are a certain cure for Consumption, as the Fulmonic Syrup ripena tha matter and purifies like blood. The Mandrake Fills act upon the liver, create a healthy blie, and remove all diseases of the liver, often a cause of Consumption. The Sea Weed Tonic gives tone and strength to the stomach, makes a good digestion, and onables the organs to form good blood; and thus creates a healthy circulation of healthy blood. The combined action of these medicines, as thus explained, will cure every case of Consumption, if skeen is time, and the use of the medicine persevered in.

Dr. Schenck is professionally at his principal office, corner Sixth and Arch streets, Fillsdelphia, every Monday, where all letters for advice may be addressed Schenck's medicities for sale by all Druggists.
